## And a little bit of this...

Haleigh Bucannan and Cory Tayler test for a chemical reaction in their chemistry class. The sophomore year of science classes offers many choices, from Earth Science to Chemistry, Biology to Anatomy and Physiology.

#### THE CENTER OF ATTENTION The Media Center is the place to be! Students like to go to the

Media Center before school to research on the computers, study with other friends, or check out a book to read. With programs like Read for a Lifetime, more GCHS students are turning on to books. We give it two thumbs up!

#### Sign On to Knowledge!

Brittany Murphy and Antonio Peck do research on the computers. Most classes put you at a computer at some time or another-whether it is doing a letter for a business class, using the math software to do some equations, researching information for an English paper, or many other kinds of assignments.
